## IMPORTANT NOTICE

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. No Lexus Warranty and nothing in this Warranty and Service Book limits the consumer guarantees under the Australian Consumer Law in any way. In some circumstances your rights under those guarantees may be greater than your rights under the applicable Lexus Warranty, in which case Lexus will always honour your rights under the guarantees.

The Lexus warranties do not limit and may not necessarily exceed your rights under the Competition and Consumer Act 2010.

## MAINTENANCE REQUIREMENTS

The maintenance requirements are an integral design feature of your Lexus contributing to overall safety and reliability. Maintenance requirements have been designed to a minimum, however the specified scheduled maintenance, as well as the general maintenance care, are very important requirements of your Lexus. To maintain optimum vehicle efficiency, reliability and safety, it is recommended that you follow the maintenance requirements as outlined in this book.

13/11/14

# LEXUS SERVICE INFORMATION

## General maintenance

General maintenance are those items requiring periodic inspection such as weekly checks that are important to your vehicle for proper operation.

These inspections can be either made by yourself or your Lexus Dealer.

A full description of general maintenance items are given in the maintenance section of the Lexus Owner's Manual.

## Scheduled maintenance

Scheduled maintenance are those items requiring service at regular intervals.

Scheduled maintenance is specified in section 4 of this book.

## RECOMMENDED WEEKLY CHECKS

In addition to the scheduled maintenance in this book, the following items should be checked at least weekly.

### Weekly checks

- Engine oil level
- Engine coolant level
- Cold tyre pressure, including spare
- Windscreen washer fluid level
- Operation of air conditioner for at least five minutes (moisture dripping onto the surface beneath the vehicle is normal when the air conditioner is operating)
- Operation of horn, all exterior and interior lights and service reminder indicators
- Vehicle exterior.

For further information, refer to the Lexus Owner's Manual, or contact your Lexus Dealer.

# LEXUS SERVICE INFORMATION

## ADDITIONAL MAINTENANCE RECOMMENDED BY YOUR LEXUS DEALER

In addition to the maintenance recommended by Lexus, your Dealer may recommend maintenance to ensure the continued efficiency and reliability of your Lexus according to your particular operating conditions.

This maintenance may include:

- Headlight realignment
- Replacement of wiper blades
- Brake system inspection
- Balance and rotation of wheels
- Wheel alignment
- Leak test and re-gas of air conditioner system
- Other maintenance or service work as recommended by your Lexus Dealer.

## YOUR LEXUS VEHICLE IDENTIFICATION

The Vehicle Identification number (VIN) is the primary identifier for your Lexus. It is stamped on the engine compartment bulkhead at the bottom of the windscreen.

The vehicle identification plate is mounted at the bottom of the passenger's side 'B' pillar and also contains the VIN and other model data such as date of manufacture.

Date of manufacture, hereinafter called the "Built Date", means the calendar month and year in which the body shell and power train sub-assemblies are conjoined and the vehicle is driven or moved from the production line.

Use the VIN, built date and other model data to identify your Lexus for registration, ordering of parts, etc.

# LEXUS SCHEDULED MAINTENANCE

## LEXUS SCHEDULED MAINTENANCE

Lexus has developed a maintenance schedule incorporating two service programmes covering conditions you are likely to experience while driving your Lexus vehicle. To maintain your Lexus in optimum condition, it is recommended that you follow the service programme that best represents your driving conditions as outlined on the next page.

The time interval or odometer reading determines when service is necessary. For most people, the odometer will indicate when service is needed. If, however, you drive very little, your vehicle should be serviced at least every 12 months, as shown in the normal service. Under severe conditions, service is required more frequently as shown in the additional service.

### UNDERSTANDING THE MAINTENANCE SCHEDULE

Here is a guide to the codes defining what type of maintenance needs to be performed at each scheduled service. You'll find these marked on Maintenance Schedule pages.

- I = Inspect and correct or replace as necessary
- R = Replace
- T = Tighten
- L = Lubricate
- C = Clean

# LEXUS SCHEDULED MAINTENANCE

## Which service programme to follow?

Your Lexus needs to be serviced in accordance with the NORMAL SERVICE on pages 18 ~ 19.

If you normally operate your Lexus under any of the severe conditions listed below, some of the NORMAL SERVICE items need to be serviced more frequently as shown in the ADDITIONAL SERVICE schedule on page 20.

### ADDITIONAL SERVICE (SEVERE CONDITIONS)

#### OPERATING CONDITIONS

- Operating on rough, muddy or snow melted roads
- Operating on dusty roads
- Towing a trailer, camper or using a car top carrier
- Repeated short trips less than 8 km and outside temperature remains below freezing
- Extensive idling and or low speed driving for a long distance
- Continuous high speed driving (80% or more of maximum vehicle speed) for over 2 hours.

## LEXUS SERVICE SEALS FOR NORMAL OR NORMAL PLUS ADDITIONAL SERVICE

The Lexus Service Seals for Normal or Normal plus Additional Service cover items serviced under normal and severe conditions. For individual items requiring service at each interval, refer to "Lexus Scheduled Maintenance" section 4.

## LEXUS SERVICE SEALS FOR ADDITIONAL SERVICE

The Lexus Service Seals for Additional Service cover service items such as engine oil and engine oil filter changed every 6 months or 7500 km under severe operating conditions only.

## SERVICE LABEL

The service label is adhered to the windscreen on completion of each service performed. It serves as a reminder for when your next service is due and proves the authenticity of the last service performed by your Lexus Dealer.
