LEXUS SCHEDULED MAINTENANCE

LEXUS SCHEDULED MAINTENANCE

Lexus has developed a maintenance schedule incorporating two service programmes covering conditions you are likely to experience while driving your Lexus vehicle. To maintain your Lexus in optimum condition, it is recommended that you follow the service programme that best represents your driving conditions as outlined on the next page.

The time interval or odometer reading determines when service is necessary. For most people, the odometer will indicate when service is needed. If, however, you drive very little, your vehicle should be serviced at least every 12 months, as shown in the normal service. Under severe conditions, service is required more frequently as shown in the additional service.

UNDERSTANDING THE MAINTENANCE SCHEDULE

Here is a guide to the codes defining what type of maintenance needs to be performed at each scheduled service. You'll find these marked on Maintenance Schedule pages.

- I = Inspect and correct or replace as necessary
- R = Replace
- T = Tighten
- L = Lubricate
- C = Clean

LEXUS SCHEDULED MAINTENANCE

Which service programme to follow?

Your Lexus needs to be serviced in accordance with the NORMAL SERVICE on pages 18 ~ 19.

If you normally operate your Lexus under any of the severe conditions listed below, some of the NORMAL SERVICE items need to be serviced more frequently as shown in the ADDITIONAL SERVICE schedule on page 20.

ADDITIONAL SERVICE (SEVERE CONDITIONS)

OPERATING CONDITIONS

- Operating on rough, muddy or snow melted roads.
- Operating on dusty roads.
- Towing a trailer, camper or using a car top carrier.
- Repeated short trips less than 8 km and outside temperature remains below freezing.
- Extensive idling and or low speed driving for a long distance.
- Continuous high speed driving (80% or more of maximum vehicle speed) for over 2 hours.

LEXUS SERVICE SEALS

LEXUS SERVICE SEALS AND SERVICE SEAL LABEL

The Lexus Service Seals provide a simple method of documenting the service history of your Lexus vehicle. The Service Seal Label is for convenience and informs when the next service is required. When your Lexus Dealer completes a service the appropriate service will be embossed with a unique seal and the Service Seal Label will be adhered to the windscreen signifying the completion and authenticity of the service performed.

The Lexus Service Seals are applied to the three types of service seal as follows.

LEXUS SERVICE SEALS FOR NORMAL OR NORMAL PLUS ADDITIONAL SERVICE

The Lexus Service Seals for Normal or Normal plus Additional Service cover items serviced under normal and severe conditions. For individual items requiring service at each interval, refer to "Lexus Scheduled Maintenance" section 4.

LEXUS SERVICE SEALS FOR ADDITIONAL SERVICE

The Lexus Service Seals for Additional Service cover service items such as engine oil and engine oil filter changed every 6 months or 7500 km under severe operating conditions only.

SERVICE SEALS LABEL

The Service Seals Label is a specially designed complementary adhesive label which is adhered to the windscreen on completion of each service performed. It serves as a reminder for when your next service is due and proves the authenticity of the last service performed by your Lexus Dealer.
